Graduation – An evidence based approach

Components of Graduation & Scale Up

Government has the mechanism to enable scale through social protection scheme

1. **Targetting:** Risk of 'leakage' and the role of the community.
2. **Consumption support:** insufficient alone to address root causes but an opportunity for partnerships.
3. **Skills training:** the Role of the coach, community to community model & harnessing digital technology. Extreme poverty in remote areas. Managing disasters.
4. **Savings and financial access:** scale as a way to open up more opportunities
5. **Asset Transfers for viable economic activities:** What about urban livelihoods? A model of Graduation for now and the future.
